Lencore transforms environments that change people's lives. Utilized by companies throughout the world, Lencore's customized engineered solutions uniquely address the privacy requirements of any facility. The Spectra® line of sound masking successfully masks intrusive speech throughout an office to provide greater comfort and privacy. Our n.FORM™ system provides communication solutions to ensure intended audiences are well informed and directed to safety during an emergency event. Whether you are an established industry leader or an innovative organization poised for growth, we believe it is our responsibility to help you create a comfortable, productive and safe work environment.
